

# Snooker Show Jumping

## 1st June 2008

### What is Snooker Show Jumping?

A series of coloured show jumps are set-up and each one is given a colour according to its difficulty.

Red coloured fences are the most straight forward and the smallest. Black are the most difficult. Competitors are required to jump as many fences as possible in the time allowed. Points are awarded as follows

Red 1 point  
Yellow 2 points  
Green 3 points  
Brown 4 points  
Blue 5 points  
Pink 6 points  
Black 7 points

However as in real snooker it is necessary to jump a red fence before a coloured one. For example you start off by jumping a red fence followed by a green then another red followed by a blue then a red one again and so on (this scenario would earn 11 points in total). Therefore the best score would be achieved by jumping red then black each time until the time runs out.

All obstacles can be jumped any number of times and where possible in either direction. The winner of the class is the one who scores the most points. If an obstacle is knocked down the points awarded for the fence will be deducted from the total score and the fence will be unjumpable in that round.

It is designed to allow riders to design their own course and only jump fences they feel comfortable with. It allows riders to decide a pace they are happy with.

Why not join in the fun and give it a go, there will plenty of people around who can explain the rules if you are still unsure. Classes start at 12 noon. In class 1 red fences will be at approximately 1ft 3 and black fences will be about 2ft 3 with the colours being between the 2. Heights for the second class will be 2ft3 for the red and 3ft 3 for the black approximate start time will be 1.00pm.

Entry for each class will be £6.00 and rosettes will be awarded to 8th place and for all clear rounds.
